You can benefit from Lynn Palm's and Cyril Pittion-Rossillon's more than 40 years of experience and knowledge of horses. Besides their many training clinics in Florida, and across the U.S., Lynn and Cyril have compiled several video series, books, training clinics, as well as training tack to help educate, inspire, and motivate you to reach your own goals.

Become a better rider and have fun while you learn! Palm Partnership Training offers a series of internationally recognized clinics that provide a unique learning experience. Lynn Palm and Cyril Pittion-Rossillon provide instruction in a variety of English and Western disciplines using valuable dressage principles as the basis for instruction.

All levels of riders, from beginners to professionals will find a place in the programs offered and all breeds of horses are welcome. Hands-on demonstrations, videotaped instruction and classroom lectures are part of all programs.

Lynn, Cyril and the Palm Partnership Training staff provide personal interest and attention to every student. Lynn Palm

A pioneer among women in the equine industry, Lynn Palm Pittion-Rossillon has long had a passion for teaching. In fact, she instructed her first clinic in 1970 – long before any of her contemporaries at the top of today's clinician market had even considered horsemanship instruction as a viable profession. No other clinician today can begin to match Palm's proven performance record as an all-around trainer, showman, exhibitor and entrepreneur with a first-class reputation. Lynn's accomplishments include:

- 34 Reserve and World Championships
- 4 "Superhorse" Championships
- Over 50 special bridleless exhibitions with the legendary Rugged Lark, including the 1989 World Cup and 1996 Atlanta Olympic Games
- Judged AQHA World Championship Show 1990, 2000 and 2006
- Named 2000 AQHA Female Equestrian of the Year by the Women's Sports Foundation

The Rider's Guide to Real Collection: Achieve Willingness, Balance and the Perfect Frame with Performance Horses

Written for riders who wish to extend their horses' athletic lives and make them better, happier performers, this guide defines the practice of collection and explains how to train horses in it. Collection, or self-carriage, involves a horse carrying more weight on its hind legs than its front legs, allowing it to move more easily and perform more beautifully—but it can be difficult to achieve. Exercises for varying skill levels, riding styles, and horses help riders learn what qualifies as collection and how to attain it. Tips on how to avoid the most common bad habits and mistakes are also included in this manual that is beneficial to riders and horses everywhere.
