

English Saddles Custom Designed By FORESTIER

Lynn Palm and Cyril Pittion-Rossillon of Palm Partnership Training® have partnered with Forestier, one of the oldest and most respected saddle makers in France to develop a unique Dressage saddle. The **Alliance Dressage** is built around a Forestier tree and is “one-of-a-kind”. It has been specifically designed to fit the conformation of Quarter Horses, Appendix Quarter Horses, Paints and other stock horse breeds. It will also adapt well to the horse with low withers, broad shoulders and a wide back.

Particular attention has been paid to the design of the front panels to ensure a correct fit over the withers and shoulders providing the horse with great comfort and fluidity of movement at all times. Small, even depressions have been created in the front panels to mold around and absorb the bulk of the shoulders thus enhancing the quality of the fit. The tapered design of the middle paneling ensures the saddle great stability. The back paneling is offered in two different levels of thickness so the fit can be chosen to keep the saddle level on a specific horse.

The seat was specifically designed to offer the rider freedom of movement. This “not-so-deep” seat design permits the rider to easily achieve a classical Dressage position and allows for effortless slight changes of position and balance. The **Alliance Dressage** is offered with mono flaps for added close contact. Flaps and knee rolls were carefully designed to promote a still and balanced leg position, but also to give the rider the ability to vary the leg position for more precise communication.

The **Alliance Dressage** is made of the finest grade of French leather for ultimate softness and durability! Seat and knee rolls are of the highest quality calfskin available and add to the overall comfort of this unique Dressage saddle!

Sizes: 16” 16.5” 17” 17.5” 18” 19”

Offered only in black

Flaps: Short – Standard – Long

Tree width: Medium – Large

Leather: Full Grain – Doubled Calf – Buffalo

Customizing is available with an additional charge

*As the Dressage discipline grows by leaps and bounds in the US, so does the number of riders with Quarter Horses and other stock horse breeds. A need for a Dressage saddle specifically designed to fit the stock horse was created. Cyril and Lynn developed the **Alliance Dressage**. The innovative “one-of-a-kind” front panels fit the low withered, broad shouldered and wide backed horse. Since so much time is spent at sitting gaits, we wanted to ensure maximum comfort for the horse. Your horse will love your confidence and balance!*
